PFC filling inside the LMB02 belts

The **SERMAX-OSG**® Pneumatic Feeding Conveyors **PFC** range has been designed for the smart feeding of sticky and fragile products inside each single line or screwfeeder of our LMB weighers.

The speed ,and timing paremeters can be programmed in the control touch panel product recipe,in order to ensure a suitable feeding and spreading of the products , a key factor to obtain acurate weights, during the weighing cycle. Key features include:

- + Hygienic Design
- + Remote connection
- + Low dropping heights
- + FDA components
- + Mobile support
- + Pneumatic Motion
- + Easy to clean
- + Multi-Point Feeding
- + Gentle product handling
